Irving, TX 75061

I do hope this small gift actually makes it, having been returned on a previous occasion. It is a small but important part of our Australian cultural history and one I hope will provide some memory of the work you and Business Interiors performed for BlueScope Steel in Dallas. In practical terms it is designed to come back if thrown, but I did not test, this is for you to do. In Symbolic terms it means a return to friends, something I hope to do at some point in the future.

On behalf of BlueScope Steel, I would like to thank you for your support during the project and the result, from our perspective, is both a great representation of BlueScope Steel and a wonderful work environment.

It was fun getting out of my usual sphere of operation and getting involved in an office design, utilisation and fit out project. I have been taking SOME of the credit within BlueScope Steel for the outcome, but not ALL the credit. Many visitors have made mention of the overall result and it was in large part due to your ongoing efforts.

My Sincere thanks;

Please advise if you can actually get the boomerang to come back or you need lessons. They aint cheap, given it would incur return flights Oz to Dallas.

Kind Regards
