Letter of recommendation for Business Interiors

It is indeed an honor to have the opportunity to recommend Business Interiors for special recognition. We at Metrocare Services have nothing but high praise for the professionalism and high quality of work this business has produced on our behalf.

Metrocare Services is the Mental Health/Mental Retardation Center for Dallas County. We are a public health agency for low income/poverty level individuals needing medical assistance for their behavioral health issues. We serve 36,000 patients annually through four major clinics located in the Dallas area.

Two years ago we embarked on a capital campaign to renovate several of our facilities. Our buildings were over crowded, shop worn and badly in need of a face-lift. Business Interiors not only guided us through the construction and cosmetic refurbishing, but also went the extra mile to assist us with facility management, better utilization of space and adherence to JACHO and HIPAA requirements.

We have been delighted with "our new look". Patients and staff alike revel in the clean, efficient and attractive new environment.

We look forward to more projects with Business Interiors in the near future.

Sincerely,

Sandy Stephens  
Director of Philanthropy  
Metrocare Services
